We firmly believe that all children should experience high quality PE and School Sport. This belief and ethos allows the school to shape our children into healthy, social and active young people.

We aim to build the skills, knowledge and confidence of our pupils, which leads to lifelong participation through the delivery of unique, broad activities and skills which are fully inclusive and personalised to the needs of our children.

We feel we can achieve this through using our Sports Premium funding. Our objectives for the coming year will be:

- To improve the quality of existing PE teaching through continuing professional learning in PE for generalists, so that all our pupils improve their health, skills and physical literacy, and have a broader range of sports.
- To increase participation levels in competitive sport and healthy activity of pupils, and maintain these throughout their life.
- To understand the benefits of high quality PE and Sport, including its use as a tool for whole school improvement.
